

## “Tolec”

In early September 2010 Tolec learned – that he's a representative, an emissary, of the Andromeda Council, an intergalactic, interstellar and interdimensional governance & development body... of aligned, benevolent star systems & planets of sentient intelligent life... for worlds in both the Milky Way & Andromeda galaxies. In deep space, this governance body is known by its ambassadors & diplomats as the: “**Galactic Council**”.

So that he could keep his private, personal family life ~ private ~ he was given the name “Tolec”, by his contacts with the Council, as an Earth based, public-persona, alias name. They've told Tolec they've been in communication with him by various methods... since age 5 with over 100+ physical contacts... and a myriad of many other higher dimensional experiences, on-going, 'knowing', semi-telepathic, visual, auditory & other methods of communication .

During his early September 2010 contact experience – Tolec learned his first conscious, fully awake contact as an adult, in early August 1993, was with his principal Andromeda Council contact person, the commander responsible for the primary Andromeda Council biosphere, and the other eleven (11) biospheres, located in this solar system. Together, he and this gentleman traveled back-in-time on three (3) loosely clustered together, but separate, time-travel trips, via an Andromeda Council scout craft to the 1840s, an area of rural Kentucky, or West Virginia, to observe a family of four (4) in their day-to-day life struggles.\_\_\_\_\_

In his professional career, beginning 1982, he spent 17 years in the healthcare software industry, in senior management roles with the last two companies; a brief stint in venture capital and 12 subsequent years in international banking as a Managing Director & Director of International Bank Operations [and compliance], and as Senior Managing Director & Chief Operating Officer (COO) of a global, alternative, private, asset management firm.

Today, since his first in September 2016, he organizes and produces “*Transformational Shift Events*” conferences [having also produced two (2) in Australia in October 2017], and special events around the American West and Southwest, which are hailed by many as profound, insightful, unforgettable adventures and deeply moving spiritual experiences. With Joe Anthony of *PlanetsWithin* Tolec also co-produces the monthly gathering: **Sedona Close Encounters** which introduces a new, leading edge speaker & topic every month.

On the last weekend of September 2018 Tolec produced his third sold out annual, international, U.S conference: *THE GREAT AWAKENING: MESSAGES FROM OUR GALACTIC FAMILY* which was held in Sedona, Arizona.

On the weekend of **September 27-29, 2019** Tolec & Joe Anthony will produce their 4<sup>th</sup> annual, international, U.S conference: “*An Exploration Into Human Awakening and Expanding Human Consciousness*”. For this conference they will address topics such as, who are we really, each one of us. What are our unique passions & joys. What moves our hearts to smile & sing. What does it mean to be "aware", "conscious" and "awakened"? What is this moment of change all about? How are each one of us acting... during this time of truly dramatic social, geopolitical, cultural and planet wide changes? And, when will we finally begin to understand it is our collective knowledge, consciousness, diversity & differences that make us strong, that we should celebrate these and can unify us.\_\_\_\_\_ Please join us for this amazing event.
