

re: Tory Smith matter.
July 17, 2016

This a formal response - to one - of the many people who have written to me... about Tory Smith of Great Britain, and his desire to speak the truth regarding systemic paedophilia at the top levels of global power & the Reptilians who are killing his body.

And, potential Andromeda Council intervention and help.

Following Andromeda Council protocols -

with the assistance of the commander of the Andromeda Council (A/C) biospheres, Andromene, their primary intedimensional communicator, Azar their Chief Medical Officer (CMO), Nahiska, the Head of all Andromeda Council Security Forces, and lastly, Ambassador Tanka, AC Ambassador to planet Earth;

I've asked for as much immediate protection for Tory Smith as possible.

What they have has shown me is a moving image of a Reptilian siphoning the energy life force out of this man. What I am saying is literal. This Reptilian is sucking the energetic life force, his spiritual essence, that slice of his oversoul that animates his human body... the Reptilian is sucking of the life force essence out of this human being, Tory Smith.

However, Azar, A/C CMO, said that - the soul - of this person is protected by the connection with the Arcturian engineering life protectorate that has mastered the art of securing, and keeping intact, the geometric pattern of 'Tory Smith's' said life force, and any life forms that exist on any dimensions... except the Co-creators and the, for lack of better words, highest level, 'angelic' dimensional realms.

Co-creators and the angelic frequency dimensional realms have their connection directly with Source. Therefore, their engineering design of protection comes from Source as the lower dimensions have yet to obtain this level of mastery, this kind of protective frequencies.

Moreover, Reptilians are no longer the 'master' of souls on Earth because of the planetary frequency changes that had once been in place previous to energies that came in with what was called the - 'Harmonic Convergence.' They have lost the majority of their so-called 'powers'.

And, they are dying and are very hard, trying to maintain the control over human beings to renew their '*feasting strength*', so to speak.

The intervention on the part of the People from the Planet Kaena, Procyon star system, they have destroyed the Reptilians many, 15, operational undersea bases... as well as some underground ones.

Now only approximately 120 Reptilians remain on planet Earth. About 70 of them are pure Reptilians, and the remaining ones are hybrids, part cosmic human and part reptilian DNA.

Reptilians continue to make humanity believe that they can still terrorize them, if humanity allows them to do so.

The sonic frequency of the human mind is very powerful... if humanity can realize this discovery for themselves.

In addition, with our advanced sonic technologies, originally created by the People of the Procyon Star system... Reptilian minds cannot tolerate these high pitch, much higher frequencies; therefore, these remaining Reptilians on, or deep inside planet Earth... they will ALL be eradicated.

As to our intervention –

Nahiska, along with his security forces, and the officers under the Commander of the primary AC biospheres - we will dispatch and continue to dispatch to locations where there have been human beings that are targeted and are continuously targeted by Reptilians that are the voice to humanity;

By us & our joint allies, the remaining Reptilians that are left on this planet will be removed, or destroyed.

How "soon" ... will the remaining Reptilians be destroyed and/or captured? We can only say, soon, as you would understand in your language.

In closing, here is what Ambassador Tanka had to say, overall, about this situation:

"...People of Earth, we are here at your doorstep. My advice to you is to take a deep breath and calm your own hearts. Let your hearts beat to the center of your own souls. Breathe the fresh air among the trees, grasses, and the waters of the Earth. Silent the pounding of your hearts to listen to the birds that sing to you the many songs of the Earth. Look up to the skies on a bright clear day to ponder the beauty of your blue blue.

Watch for us in the dusk of evening, starry night skies and the dew of the early morning sunrise. Close your own eyes, be silent and listen within and you will hear us speaking to you in words that you can easily understand. We are nearer to you than you can ever imagine like a brush upon your shoulders and a touch of a gentle kiss to your forehead or cheek. Embrace the new dawn of a new era for this beautiful world and its peoples.

Be strong, have faith within your hearts and know that we are ever monitoring this planet with love and concern for your well being... for we are all related in the cosmos of life.

Be at peace, my young students and children of the Earth as well as children from the stars. All councils join with me to say, Mitakuye Oya'sin! We are all related. We are One.

That was from Ambassador Tanka.

This is Tolec reporting.

Wodakote, peace, to you, your family & your closest friends.
